Portfolio:-https://nadimportfolio.in

Backend Developer with 2+ years of experience building scalable, secure, and maintainable web applications, with a strong focus on REST APIs using Laravel and PHP. Delivered production backend modules for projects including Akira Pet Food and Central English School, and built REST APIs that improved reliability and load/performance by 30%. Achieved up to a 40% reduction in API response time through query optimization and caching, with implementation of authentication, RBAC, and API security. Seeking a Java/ Python Production Support role at CGI to apply backend, debugging, and performance optimization experience to application monitoring and log/error analysis.

Dynatrace | Production Support | Technical Support | Python | Java | REST APIs | Laravel | PHP | MySQL | API Security | Authentication | Role-based access control (RBAC) | Performance Optimization | Database Query Optimization | Deployment | Git | GitHub | Postman | cPanel | MVC Architecture | Firebase | SQL | JavaScript | CSS

WORK EXPERIENCE

Associate Developer-Lince Soft Solutions Pvt. Ltd., Hyderabad **Nov 2023 - Present**

- Developed and maintained **scalable** backend systems using *Laravel*, **PHP**, and **MySQL**.
- Built secure REST APIs used across multiple client applications, improving **reliability** and **load/performance by 30%**.
- Implemented authentication flows, **role-based access control (RBAC)**, and **API security**.
- Optimized database queries to improve **system performance** and scalability.
- Worked on projects including *Akira Pet Food* and *Central English School*, delivering full backend modules end-to-end.
- Collaborated with cross-functional teams for feature rollouts, debugging, and production deployments.

null-Ahmad Web Solutions **Jun 2023 - Nov 2023**

- Completed an internship focused on backend development work.

PROJECTS

Ultras E-Commerce Platform (Full Stack) **9 Months**

- Developed a complete e-commerce system including **product management** and **checkout flow** using **PHP** and **MySQL**.
- Integrated **REST APIs** to support the frontend and enable a seamless user experience.

BuyBazaar – Multi-Vendor E-commerce Platform **9 Months**

- Developed a **vendor dashboard** for management.
- Built **REST APIs** for frontend integration and product operations.
- Implemented features for **real-time updates**.

Akira Pet Food – Web Application **9 Months**

- Developed a **product catalog** and **order management** system.
- Enhanced backend logic to improve **performance**.

King Furniture – CMS Web Application **9 Months**

- Built an **admin panel** for real-time product management.

- Developed a **CMS backend** system to support various functionalities.

EDUCATION

MCA | Computers **2023**
IIMT College of Engineering, Noida
Marks - 68%

B.Sc | Chemistry **2020**
Magadh University
Marks - 66%

12th **2017**
Bihar, English
Marks - 59%

10th **2015**
CBSE, English
Marks - 77%
